- Bank solvency/financial capacity certificate, only if prescribed in the final approved NIT.
- List of tools, plant, equipment, manpower and arrangements proposed for execution.
- Public liability/contractor's insurance documents before commencement, where prescribed.

4.3 Financial cover

The Financial Bid shall be submitted only in the BOQ/format made available in the e-procurement portal. The bidder shall quote the rate in the prescribed manner. The Technical Bid shall not contain any price/rate information. A conditional or incomplete bid is liable to rejection.

5. Submission, Opening and Evaluation

5.1 Bids shall be submitted online within the date/time notified in the abridged e-NIT and portal. The bidder is responsible for successful upload, digital signing and submission before the deadline.

5.2 The Technical Bid shall be opened electronically by the Tender Opening Authority or authorized representative using a valid DSC. Statutory documents shall be checked first; bids failing mandatory requirements may be rejected.

5.3 Financial Bids of only technically qualified bidders shall be opened electronically on the date/time notified through the portal.

5.4 The Tender Accepting Authority may seek clarification or rate analysis where permissible. Clarification shall not permit material alteration of a bid.

5.5 The lowest valid responsive offer may normally be considered, but the authority reserves the right to accept or reject any/all bids in accordance with applicable rules, recording reasons where required.

6. Earnest Money, Security Deposit and Additional Performance Security

6.1 EMD amount, deposit mode and any admissible exemption shall be specified in the final published NIT in accordance with prevailing Government orders and e-procurement portal.

6.2 The successful bidder shall furnish security deposit/performance security at the rate and in the manner prescribed by applicable Government order, standard tender form and final NIT. Recovery from bills shall be made only as provided under governing rules/contract.

6.3 If the accepted bid attracts additional performance security under applicable West Bengal Government orders, the successful bidder shall furnish it in the prescribed form and time before issue of work order.

6.4 No interest shall be payable on EMD/security deposit unless provided by applicable rules.

7. Execution, Inspection and Electrical Safety

- The contractor shall execute the work under EIC supervision and shall not alter approved layout, design, structure, load or location without written permission.
- All installations shall comply with applicable electricity laws, safety rules, standards and directions of the competent electrical authority. Required inspection, test reports and clearances shall be obtained before energizing wherever applicable.
- Proper earthing shall be provided for generators, distribution boards, metal structures and other equipment. Suitable ELCB/RCCB protection, correctly rated circuit breakers, weatherproof distribution boxes and adequate cable protection shall be used as appropriate.
- Main cables shall be of suitable capacity and protected. Unsafe joints, exposed conductors, open twisting of wires and makeshift connections are prohibited.
- Temporary gates, motifs, boards, scaffolds and supports shall be stable and securely anchored. Structural stability certification by a competent/registered structural engineer shall be furnished where required.
- Fire extinguishers, isolation switches, barricading and warning signage shall be provided where required.
- The contractor shall maintain adequate standby manpower, spares and equipment for prompt restoration of failed lamps, LEDs, circuits or generators.

- The contractor shall protect pedestrians, traffic, nearby buildings, public utilities and infrastructure. Necessary permissions for work over/along roads and public spaces shall be obtained where applicable.

8. Readiness, Maintenance and Penalty

8.1 All installations shall be ready for inspection and trial operation by the readiness date in the work order. Defects shall be rectified immediately.

8.2 Delay in readiness, non-operation, repeated failure, inadequate maintenance or failure to attend breakdowns may attract deductions/penalties as specified in the approved contract and applicable rules. The final NIT/work order shall state the precise rate, cap and calculation method.

8.3 The EIC shall record outages, defects, delayed restoration and other non-compliance. Deductions shall be based on recorded facts and contract conditions.

8.4 The contractor shall be responsible for damage, injury or loss caused by negligence, defective installation or breach of safety requirements, subject to applicable law and contract. Required insurance shall be maintained.

8.5 The contractor shall remove installations and debris and restore the site as directed. Damage to public property attributable to the contractor shall be rectified at its cost, subject to contract and law.

9. Taxes, Duties and Rates

The quoted rate shall include all costs necessary for complete execution, including materials/equipment hire, labour, transport, installation, wiring, maintenance, dismantling, tools, insurance, testing, statutory fees and applicable taxes/duties, unless the final BOQ expressly provides otherwise. Statutory deductions shall be made from bills as required by law and prevailing Government orders.

10. Withdrawal, Validity and Debarment

10.1 The bid shall remain valid for 120 days from the date of opening, unless a different period is specified in the final NIT.

10.2 Withdrawal or refusal by the selected bidder to execute the work may lead to forfeiture of EMD and other action only in accordance with applicable Government orders and tender conditions.

10.3 Suspension/debarment shall be dealt with in accordance with applicable West Bengal Government orders and due process.

10.4 False declarations, forged credentials or material misrepresentation may result in rejection, forfeiture of security, termination and referral to the competent authority for action under applicable law.

11. Dispute Resolution and Disclaimer

Disputes shall be dealt with under the dispute-resolution provisions of the contract and applicable law. Jurisdiction shall lie with the competent courts having jurisdiction over the matter. All expenses relating to preparation and submission of bids shall be borne by bidders. The Corporation reserves its rights under applicable procurement rules and final tender conditions, including the right to cancel the tender for recorded reasons where required by law.

12. Work order will be issued, once approval is obtained to take up the work of decoration, in areas which are beyond the administration jurisdiction of CMC and subject to receipt of allotment from competent authority.

13. Draft Declaration by Bidder

I/We hereby declare that I/we have read and understood the e-NIT, specifications, estimate, safety requirements and all applicable conditions. The information and documents submitted with the bid are true and genuine. I/We have disclosed any debarment, suspension, penalty or contract termination applicable to the firm. I/We agree to execute the work in accordance with the accepted bid, approved estimate, work order and applicable law.

Schedule showing (approximately) material to be supplied by the Works Building Department under clause 10 for work contracted to be executed and the rates at which they are to be charged for.

Particulars	Name at which the material will be charged to the contractor			Place of delivery
	Unit	Rs.	P	

Note 1 The person or firm submitting the tender should see that the rates in the above schedule are fille up by the Engineer / SAE / Overseer or the issue of the from prior to the submission of the tender.
Note 2 Empty cement bags are the property of Corporation and should be returned by the contractor.

Signature of contractor

Signature of Administrator / Mayor / Dy. Mayo

1. Cement found surplus after the completion of a work should be returned to the Corporation, the value of the cement returned to the department will be credited to the contractor. If any contractor, is found to have used the surplus cement for his own purpose or otherwise disposed of it he may be held guilty of theft. In this connection the provision of clause 10 may be referred to, where it is clearly stated that all materials issued to the contractor shall remain the property of Corporation.

2. The contractors shall have to make his own arrangements for water both for the work and used by his coolly etc. for steam road rollers and for all tools and plant etc. required on the work.

3. Contractor will be responsible for the payments of all water charges payable to the Corporation or any other water works authority including a Govt. department concerned.

4. If the contractor shall desire an extension of the time for completion of the work under 5 of the contract, no application for such entertained if it is not received in sufficient time to allow Corporation to consider it and the contractor will be responsible for the consequence arising out of his negligence in this respect.

5. The contractor will have to leave conducts in wall and floors to run conduct of cables, where necessary, and he will not entitled to any extra payment on this account.

6. Contractors in course at their work should understand that all materials (e. g. store and other materials) obtained in the work of dismantling, excavation, etc. will be considered Corporation property and will be disposed of to the best advantage of Corporation.

7. Owing to difficulty certain materials in the open market the Corporation have undertaken to supply materials specified in the schedule on page ..... of the tender from at rates stated therein. There may be delay in obtaining the materials by the Corporation and the contractor is therefore required to keep himself in touch with the day position regarding the supply of materials from the Engineer / SAE / Overseer and to so adjusted the progress of the that his labour may not remain idle nor may thereby any other claim due to or arising from delay in obtaining the materials. It should be clearly understood that to claim whatsoever shall be entertained by the Corporation on account of delay in supplying materials.

8. The minimum period for which a roller is required to be used by a contractor shall be determined by the Corporation on the basis of the quality of metal that can be consolidated by a roller per day and the Engineer / SAE / Overseer decision shall be final. If the roller be required to work for a long period due to bad arrangement of the condition, shortage water etc. additional period the roller works.

9. No compensation for any damage done by rain or traffic during execution of the work will be made.

10. Whenever a work is carried out in municipal area electric lights or electric danger signal wherever available shall be provided by the contractor on the barriers well as paraffin lights.

11. The contractor should quote through rated inclusive of cost of materials carriage to place of working.

12. The contractor should given complete specifications showing the method of execution and the quality and quantity of material they intend to use per hundred sq. ft. area.

13. It must be clearly understood by the contractor that no claim on account on changed rates on those already accepted, due to war or other fluctuations will be entertained during the currency of this contractor for as per schedule to the agreement and the additional work, if any under clause 12 of the contract, if such additional work, shall consist of items which have already been quoted for on items not quoted for appearing in District Schedule.

Inconvenience of the public

14. The contractor (s) shall not deposit material on any site which will seriously inconvenience the public. The Engineer / SAE / Overseer may require the contractor (s) to remove any materials, which are considered by him to be a danger and inconvenience to the public or cause them to remove at the contractors' cost.

15. The contractor undertake to have the site clean, free from rubbish to the satisfaction of the Engineer / SAE / Overseer. All surplus materials, rubbish, etc. will be removed to the place fixed by the Engineer / SAE / Overseer and nothing extra will be paid.

16. The contractor shall not allow any rubbish or debris to remain on the premises during of after repairs, but shall remove the same and keep the place neat and tidy during the progress of the work. The Engineer / SAE / Overseer may get the site of premises cleared of debris etc. and removed the cost from the bill of the contractor, if the latter shows slackness in observing this clause.

17. Materials brought at site shall not be stacked at random. The contractor shall stack all those materials as directed by the Engineer / SAE / Overseer.

Additional condition when road rollers are supplied by the Corporation

Road rollers if available, shall be supplied by the Corporation on hire upon payment of the charges at the rates and on the condition specified below. The contractor should requisition road roller at least six weeks before the date on which these or required mentioning the dates on which delivery is desired. In case rollers cannot abe made available to the contractor on that date requisite extension of hire shall be granted to the contractor for completion of the work but on compensation for labour or any other cause shall be entertained.
